AUTHOR INDEX

A

Aalami-Harandi, B., *with* **Sheikholeslamzadeh, S., and Fateh, H.** Spondylolisthesis of the cervical spine, *95.

Abraham, E., *with* **Verinder, D. G. R., and Sharrard, W. J. W.** The treatment of flexion contracture of the knee in myelomeningocele, *433.

Ackroyd, C. E., *with* **Polyzoides, A. J.** Patellectomy for osteoarthritis. A study of eighty-one patients followed from one to twenty-two years, 108.

Adachi, H., *with* **Hanai, K., and Ogasawara, H.** Axial transverse tomography of the cervical spine narrowed by ossification of the posterior longitudinal ligament, *481.

Adair, I. V., *with* **Armstrong, G. W. D., and VanWijk, M. R.** The evaluation of Moiré topography as a method for scoliosis screening programmes, 505.

Adams, F. G., *with others.* The use of ^{99m}Technetium scintigraphy for the detection of avascular necrosis of the femoral head following intracapsular fracture, 375.

Agbo, D. C. Radiological diagnosis of sickle-cell disease *(discussion),* 124.

Ahmed, E. The effects of mandatory seat belt wearing on the mortality and pattern of injury of car occupants involved in motor vehicle crashes *(discussion),* 127.

Ahuja, S. C., *with others.* Juxtacortical (parosteal) osteogenic sarcoma: histological grading, radiographic findings, prognosis and management, 499.

Aichroth, P. M. *Book review,* 137.

Osteochondral fracture and osteochondritis dissecans in sportsmen's knee injuries, 108.

Albright, J. A., *with others.* Cervical laminectomy and facet fusion—fifteen years' experience, 121.

Alldred, A. J. Severe chainsaw injuries *(discussion),* 515.

Allen, M., *with* **Hall, J. E., and Gray, J.** Dwyer instrumentation and spinal fusion, 117.

Alves, A. F., *with* **Resina, J.** A technique of correction and internal fixation for scoliosis, *159.

Amstutz, H. C. Loosening of joint implant components as a result of failure of polymethylmethacrylate *(discussion),* 121.

Anderson, E. G., *with others.* Clinical assessment of a new weight-relieving brace, *439.

Andrish, J., *with* **Kalamchi, A., and MacEwen, G. D.** Sacral agenesis: a clinical evaluation of its management, heredity and associated anomalies, 505.

Angel, J. C. *Book review,* 521.

Arden, G. P., *with others.* Arthroplasty of the hip in ankylosing spondylitis, *393, 501.

Arguëlles, F., *with others.* Irradiation lesions of the growth plate in rabbits, *85.

Armstrong, G. W. D., *with* **Adair, I. V., and VanWijk, M. R.** The evaluation of Moiré topography as a method for scoliosis screening programmes, 505.

Ashworth, C. R., *with others.* The use of paratenon, polyethylene film, or Silastic sheet to prevent restricting adhesions to tendons of the hand, 122.

Astley, T. M. Torsional strength in recently nailed high femoral fractures, 517.

Atasoy, E., *with others.* Arthritis of trapezial joints—a critical assessment of prosthetic replacement, 509.

Attenborough, C. G. Total knee replacement with the stabilised gliding prosthesis, 119.

B

Badenhorst, M., *with others.* The muscles in club foot—a histological, histochemical and electron microscopic study, *465.

Baggott, D. G., *with* **Lanyon, L. E., and Goodship, A. E.** The functional adaptation of bone, 250.

Bailey, R. W. Cervical laminectomy and facet fusion *(discussion),* 121.

with others. Aetiology and treatment of the "chin on chest" deformity in ankylosing spondylitis, 121.

Bailey, S. I., *with* **Bell, D.** Failures of anterior bone grafting of injured cervical spine, 509.

with **Simmons, E. H., and Evans, D. C.** Thoracic disc disease, 506.

Baker, G. C. W. The effect of local trauma on tibial growth *(discussion),* 503.

Eliminating congenital dislocation of the hips *(discussion),* 502.

Barnes, R. Fractures of the neck of the femur, 101.

Barrington, T. W., *with* **Birt, D.** Non-infected reoperated total hip arthroplasties, 512.

Bassett, C. A. L., *with* **Pilla, A. A., and Pawluk, R. J.** The use of inductively-coupled electromagnetic fields in the treatment of congenital and acquired pseudarthroses, 108.

Bassingthwaighte, J. B., *with others.* The distribution of ^{99m}TcEHDP in the tissues of the dog and the effect of a change in bone blood flow, 374.

Bates, E. H. A case of unusual gait *(discussion),* 516.

Congenital dislocation of the hip in the neonatal period *(discussion),* 514.

A major limb replantation *(discussion),* 516.

Microsurgery and its application to orthopaedic salvage procedures, 514.

The modern approach to Perthes' disease, 518.

The orthopaedic aspects of puberty, 125.

Simple Bankhart's stapling for recurrent dislocation of the shoulder *(discussion),* 516.

Bear, J. N., *with* **Dennyson, W. G., and Bhoola, K. D.** Macrodactyly in the foot, *355.

Beasley, A. W. The effects of mandatory seat belt wearing on the mortality and pattern of injury of car occupants involved in motor vehicle crashes *(discussion),* 127.

The straight child and the crooked tree, 125.

Beauchamp, P., *with* **Laurin, C. A.** The real challenge of cruciate ligament substitution, 511.

Beaupré, A., *with* **Fradet, J. F.** The multiple trauma patient, 510.

Bedbrook, G. M. Late neurological sequelae of spinal cord injuries, 124.

The upper limb in traumatic tetraplegia *(discussion),* 99.

Begg, R., *with others.* Fractures of the ankle—clinical and biomechanical considerations, 510.

Beighton, P., *with* **Hamersma, H., and Horan, F.** Orthopaedic problems in osteopetrosis, 255.

Bell, D., *with* **Bailey, S. I.** Failures of anterior bone grafting of injured cervical spine, 509.

Bencivenga, A., *with* **Jeshrani, M. K.** Comparative value of cortical and cancellous bone as grafting tissue, 513.

with **Jeshrani, M. K.** Management of intercondylar fractures of the humerus, 514.

Bennett, F., *with* **Cooke, T. D. V.** A prospective biopsy study of human arthritic collagenous tissues for evidence of immune complex deposition, 109.

Bentley, G. The role of diphosphonate on heterotopic ossification after total hip arthroplasty *(discussion),* 501.

Surgical treatment of chondromalacia patellae, 107.

with **Edwards, D. H.** Osteochondritis dissecans patellae, *58.

with **Leslie, I. J.** Arthroscopy in the diagnosis of chondromalacia patellae, 499.

Berman, L., *with* **Isaacs, H.** Structural abnormalities of muscle tissues in ankylosing spondylitis, 257.

Bettcher, K. B., *with others.* Vitamin D metabolites in orthopaedic management of haemodialysis patients, 511.

Bewes, P. Surgery in the district hospital in East Africa *(symposium),* 513.

* Indicates full article.

Bhoola, K. D., *with* **Dennyson, W. G., and Bear, J. N.** Macrodactyly in the foot, *355.
Bill, P., *with* **Erken, E. H. W.** Hereditary sensory neuropathy, 258.
Birt, D., *with* **Barrington, T. W.** Non-infected reoperated total hip arthroplasties, 512.
Blackburne, J. S., *with* **Peel, T. E.** A new method of measuring patellar height, *241.
with **Velikas, E. P.** Spondylolisthesis in children and adolescents, *490.
Blackstone, I. W., *with others.* Perthes' disease: the scientific basis of methods of management and their indications, 127.
Blake, P. D., *with others.* Changes in the shape, ossification and quality of bones from developing paralysed limbs. A clinico-pathological and experimental study, 251.

SUBJECT INDEX

A

A.B.C. Travelling Fellowships: visit of British fellows to North America, 1976, 371.
Accidents
See also Fractures; Injuries; *and under structures involved.*
traffic: effect of mandatory seat belt wearing on mortality and morbidity, 127.
Acetabuloplasty: Chiari's pelvic osteotomy for congenital dislocation, 124.
Achilles tendon. *See* Tendo calcaneus.
Acromioclavicular joint
degeneration
— as a cause of shoulder pain, 507.
— in painful arc syndrome, 166.
dislocation, anterior, 507.
Acrylics: methyl methacrylate bone cement
antibiotic-impregnated, *200, 512; *editorial,* 139.
— antibacterial activity of, *302.
— experimental studies in rat, *452, 500.
— *in vitro* diffusion study, *197.
— rate of elution of cephaloridine from, 377.
combined cardiovascular effects of intravenous monomer and anaesthetics in primates, 254.
giant-cell tumours treated by curettage and filling with cement, 514.
in hip replacement
— cement plug to improve fixation of femoral component, 512.
— for fractures of femoral neck, systemic disturbance after use of, *398.
in joint replacement: loosening of components due to failure of cement, 121.
metabolic study, 377.
molecular characterisation, 502.
Adams, John Crawford, retirement as Production Editor of British volume of the *Journal,* 496.
Adolescence, orthopaedic aspects of, 125.
Adrenocortical steroids
effect on mucopolysaccharide synthesis in aged articular cartilage, 109.
local injection for painful arc syndrome, 168.
necrosis of femoral head induced by, 119, *308.
American Orthopaedic Association: sixth combined meeting of orthopaedic associations of English-speaking world, 98.
Amputations
Syme's, for congenital short tibia with deficiency of fibula, 267.
traumatic, replantation after, 514, 516.
upper limb, for brachial plexus injuries, *417, 498.
Amputees
lower limb, preformed socket and modular assembly for, *77.
rehabilitation by snow skiing, 258.
Anaesthesia: combined cardiovascular effects of methyl methacrylate monomer and anaesthetics in primates, 254.
Aneurysm, aortic, syphilitic, with spinal erosion, *89.
Aneurysmal bone cyst of spine, 143.
Ankle
arthroplasty, total replacement: I.C.L.H. prosthesis, 376.
disarticulation: Syme's amputation for congenital short tibia with deficiency of fibula, 267.
fractures: clinical and biomechanical considerations, 510.
injuries: rotational displacement of lower tibial epiphysis, *331.
tenosynovitis caused by *Toxoplasma gondii,* *229.
Ankylosing spondylitis
"chin on chest" deformity in, 121.
fracture of cervical spine in, 509.
hip arthroplasty in, *393, 501.
muscle tissue abnormalities in, 257.
Ante-natal diagnosis, 100.
Antibiotics
antibiotic-impregnated acrylic bone cement, *200, 512; *editorial,* 139.
— antibacterial activity of, *302.
— experimental studies in rat, *452, 500.
— *in vitro* diffusion study, *197.
— rate of elution of cephaloridine from, 377.
in treatment of acute osteomyelitis in children, *2.
Anticoagulant therapy: heparin in subcutaneous small doses in control of deep venous thrombosis after hip replacement, 120.
Antigens. *See* Histocompatibility antigens; *see also under* Immunology.
Anti-inflammatory drugs, effects on mucopolysaccharide synthesis in aged articular cartilage, 109.
Antler growth, 100.
Aortic aneurysm, syphilitic, with spinal erosion, *89.
Arthritis
degenerative. *See* Osteoarthritis.
effects of anti-inflammatory drugs on mucopolysaccharide synthesis in aged articular cartilage, 109.
immune complex deposition in, 109.
infectious, of hip, treatment: conversion of fused hip to low friction arthroplasty, *385.
rheumatoid
— hand in:
— — synovectomy in, effect on function and bone density, 378.
— — tendon rupture, 502.
— knee in, arthroplasty of: MacIntosh prosthesis, 119.
— shoulder in, surgery of: glenoidectomy, 122.
— synovial cell culture from, 377.
— thyrocalcitonin in: physiological and potentially therapeutic role, 253.
somatomedin activity in synovial fluid in, 249.
Arthrodesis. *See under specific joints etc.*
Arthrography
of hip for pain following total replacement, 254.
of shoulder in painful arc syndrome, *166.
Arthrogryposis multiplex congenita, club foot as a restricted form of, 465.
Arthropathy
corticosteroid-induced, of hip, 119, *308.
haemophilic
— biopsy study, 118.
— localisation of factor VIII in human synovium, 374.
— natural history, 255.
— reconstructive surgery in adults, 118.
Arthroplasty
See also under specific joints.
replacement, acrylic cement in
— antibiotic-impregnated, *197, *200, *302, 377, *452, 500, 512; *editorial,* 139.
— loosening of components due to failure of cement, 121.
total replacement, 253.
— metal sensitivity developing after, 247.
Arthroscopy of knee
for chondromalacia of patella, 499.
for painful adolescent knee syndrome, 499.
Artificial limbs
See also Amputees.
lower, temporary, simple method for making, 258.
Asepsis in operating theatres: influence of ultra-clean air on wound infection after total hip replacement, 99, 517.
Association of Surgeons of East Africa, annual meeting, 1976, 512.
Australia: appointment of Sydney Nade to Chair of Orthopaedic Surgery, University of Western Australia, 496.
Australian Orthopaedic Association: sixth combined meeting of orthopaedic associations of English-speaking world, 98.

* Indicates full article or appreciable part.

Autoradiographic study with tritiated thymidine: irradiation lesions of growth plate in rabbits, *85.
Autotransfusions in scoliosis surgery, 505.
Axis vertebra: dens, fractures
in young children, 254.
treatment with halo-thoracic brace, 509.

B

Back pain
See also Sciatica.
lumbar interbody fusion for, 122.
Toronto Back Education Unit, 507.
Bankart's operation for recurrent dislocation of shoulder, 122.
modification of, 516.
Bed sores. *See* Trophic ulcers.
Bladder, urinary: incontinence in elderly women treated by decompression of cauda equina, 123.
Blood
flow: detection of ischaemia in hand with ultrasound stethoscope, 510.
transfusion: autotransfusions in scoliosis surgery, 505.
Bone(s)
See also specific bones, and terms beginning with Ost-.
blood supply: adrenergic innervation of intraosseous vessels, *323.
cells, transplantation antigens present on, in rat, *342.
cement. *See under* Acrylics.
density
— in ageing Caucasian and African populations, 109.
— in rheumatoid hand, effect of synovectomy on, 378.
— measurement by quantitative colour television image analyser: evaluation in rat, *349.
eosinophilic granuloma of spine, 143.
grafting
— antigenicity of bone *(editorial)*, 263.
— cortical *versus* cancellous bone, 513.
— experimental studies:
— — decalcified bone as a substrate for osteogenesis: interrelation of bone and marrow in combined grafts, *189.
— — role of bone marrow in post-foetal osteogenesis, 125.
— — transplantation antigens present on bone cells in rat, *342.
— in treatment of non-union of fractures of carpal scaphoid in children, *20.
growth
— *See also* Bone remodelling; Epiphysial cartilage; Osteogenesis.
— of antlers of deer, 100.
— orthopaedic aspects of puberty, 125.
— stimulation by periosteal section in rats, 503.
marrow, role in post-foetal osteogenesis, 125.
necrosis, avascular. *See also* Femur, head of, necrosis.
— after renal transplantation, 253, 514.
— corticosteroid-induced, of femoral head, *308.
— dysbaric
— — early diagnosis: experimental studies, 248.
— — experimental, in mini-pig, 375.
— — with post mortem findings, *80.
nerve supply, autonomic, *323.
Paget's disease
— fissure fractures in, 251.
— juvenile. *See* Hyperphosphatasia, familial idiopathic.
prostheses. *See* Prostheses.
radiation injury to: lesions of growth plate in rabbits, *85.
radioisotope scanning of:
— mechanisms of uptake of isotopes in, 375.
— with technetium-labelled phosphates
— — biological basis of, 374.
— — in assessment of viability of femoral head, 375.
— — in caisson disease, 248.
— — in osteoid osteoma, 128.
remodelling
— cellular mechanisms in, 376.
— vascularity and remodelling of subchondral bone and calcified cartilage in adult femoral and humeral heads, *272.

Bone(s) *(continued):*
structure and form
— changes in shape, ossification and quality of bones from developing paralysed limbs, 251.
— influence of mechanical function on, 250.
tumours
— about knee, tibia "turn-up" or femoral "turn-down" for, 125.
— chondrosarcoma
— — juxtacortical, *473.
— — of hand bones, *213.
— chordoma of cervical vertebra, 515.
— Ewing's sarcoma, 509.
— of spine in children, orthopaedic aspects of, *143.
— osteoblastoma, benign, 253.
— — as a cause of osteomalacia, *279.
— osteoclastoma
— — of distal femur, prosthetic replacement for, 254.
— — treatment, curettage and filling with acrylic cement, 514.
— osteoid osteoma: bone scanning in early diagnosis, 128.
— osteosarcoma
— — parosteal, 499.
— — treatment, 253.
— pseudomalignant osseous tumour of soft tissue and myositis ossificans, 100.

annual meeting, 1977, 504.
sixth combined meeting of orthopaedic associations of English-speaking world, 98.
Cancer. *See under* Bone tumours; *see also specific terms.*
Cape Town University, appointment of George Dall to Chair of Orthopaedic Surgery, 378.
Carbon fibre implants, induction of tendon and ligament formation by, *53, 501.
Carpus. *See* Wrist. *See also* Lunate bone; Scaphoid bone.
Cartilage
See also terms beginning with Chondr-.
articular
— arthritic, immune complex deposition in, 109.
— degeneration: biochemical changes in osteoarthritic femoral heads, 257.
— effect of anti-inflammatory drugs on mucopolysaccharide synthesis in aged joints, 109.
— scanning electron microscope study of normal and pathological tissue, 378.
calcification of, and endochondral ossification, role of three genetically distinct collagen types in, *458.
epiphysial
—*See also* Bone growth.
—radiation lesions of, in rabbits, *85.
Cauda equina
compression. *See also* Spinal stenosis.
decompression for urinary incontinence in elderly women, 123.
Cephaloridine, incorporation in bone cement, 377.
Ceramic, biodegradable (tricalcium phosphate), 252.
Cerebral palsy, 257.
foot in: triple arthrodesis by inlay grafting, *333.
Kienböck's disease in, *363.
Cervical spondylosis
See also Intervertebral discs, cervical, lesions of.
whiplash injury in patient with, potentially fatal asphyxia following, *93.
Chainsaw injuries, 515.
Chaklin, Vasily Dmietrievich *(obituary)*, 369.
Charnley, John, created Knight Bachelor, 246.
Charnley low-friction arthroplasty of hip
conversion of fused hips to, *385.
in ankylosing spondylitis, *393.
Chemonucleolysis, *45; *editorial,* 1.
Chiari's pelvic osteotomy for congenital dislocation of hip, 124.
Chondromalacia of patella
diagnosis
— arthroscopy, 499.
— radiological, 107, *241.
treatment, 107.
Chondrosarcoma
juxtacortical, *473.
mesenchymal, of spine, 143.
of hand bones, *213.
Chordoma of cervical vertebra, 515.
Chromosomal abnormalities. *See* Klinefelter's syndrome.
Chymopapain injection for lumbar disc lesions, *45; *editorial,* 1.
Clindamycin, incorporation in acrylic bone cement, *197.
Cloxacillin with fusidic acid in treatment of acute osteomyelitis in children, *2.
Club foot
muscle tissue abnormalities in, 116, *465.
radiography, analytical, *485.
treatment: early operation, 116, *337.
Collagen: role of three genetically distinct types in endochondral ossification and calcification of cartilage, *458.
Congenital abnormalities
ante-natal diagnosis of, 100.
association with Perthes' disease, 248.
incidence in South African negroes, 257.
Connective tissue
response to environmental load, 515.
ultrastructure of normal digital flexor tendon sheath and of tissue formed round silicone and polyethylene implants, *206.
Corticosteroids. *See* Adrenocortical steroids.
Coxa plana. *See* Osteochondritis juvenilis of hip.
Coxa valga, sub-capital, after varus osteotomy for congenital dislocation of hip, *152.

* Indicates full article or appreciable part.

Cruciate ligaments
anterior
— "over-the-top" repair of, 511.
— reconstruction by the MacIntosh techniques, 511.
biomechanical investigation, 511.
late repair using menisci, *15.
Cysts, epidermoid, of spine, 143.

D

Dall, George, appointed to Chair of Orthopaedic Surgery, University of Cape Town, 378.
Decompression sickness. *See* Caisson disease.
Decubitus ulcers. *See* Trophic ulcers.
Deer antler growth, 100.
Dens, fractures
in young children, 254.
treatment with halo-thoracic brace, 509.
Diabetes mellitus, proximal neuropathy in, presenting as a herniated disc syndrome, 255.
Diagnosis, ante-natal, 100.
Diphosphonates
in prevention of ectopic ossification after total hip arthroplasty, 501.
technetium-labelled, in bone scanning
— biological basis of, 374.
— in assessment of viability of femoral head, 375.

Papain: chymopapain injection for lumbar disc lesions, *45; *editorial,* 1.
Paralysis
See also Cerebral palsy; Poliomyelitis; Spina bifida.
See also under Brachial plexus; Nerves; Spinal cord.
agitans. *See* Parkinson's disease.
changes in shape, ossification and quality of bones from developing paralysed limbs, 251.
Paraplegia
complicating spinal tumours in children, *143.
energy expenditure during use of a swivel walker device, 374.
Parasitic infections. *See* Toxoplasmosis.
Parkinson's disease, hip fractures in, 504.
Parosteal osteosarcoma, 499.

* Indicates full article or appreciable part.

Patella
chondromalacia
— diagnosis
— — arthroscopy, 499.
— — radiological, 107, *241.
— treatment, 107.
dislocation, recurrent
— diagnosis, radiological, 107, *241.
— natural history, 107.
fractures, treated by total excision: long-term follow-up, *352.
osteochondritis dissecans, *58.
Patella alta and infera: new method of measuring patellar height, *241.
Patellectomy
"purse-string", 506.
for osteoarthritis, 108.
Pelvis, osteotomy of: Chiari's, for congenital dislocation of hip, 124.
Pennal, George Frederik *(obituary)*, 369.
Peripheral nerves. *See* Nerves.
Peritendinitis crepitans. *See* Tenosynovitis, traumatic.
Perth, University of Western Australia: appointment of Sydney Nade to Chair of Orthopaedic Surgery, 496.
Perthes' disease. *See* Osteochondritis juvenilis of hip.
Pes anserinus transfer for chronic rotational instability of knee, 499.
Pes cavus, posterior displacement osteotomy of calcaneus for, *233.
Pes planus. *See* Flat foot.
Phlebography. *See* Venography.
Phosphates
oral phosphate therapy in x-linked hypophosphataemic rickets, 116.
technetium-labelled, in bone scanning
— biological basis of, 374.
— in assessment of viability of femoral head, 375.
— in caisson disease, 248.
— of osteoid osteoma, 128.
tricalcium phosphate as a biodegradable ceramic, 252.
Plaster of Paris: cast-brace treatment of fractures of femoral shaft, *411.
Plastics
See also Acrylics; Polyethylene; Silicones.
tissue response to, 103.
ultrastructure of tissue formed round silicone and polyethylene implants, *206.
Poliomyelitis
crawling patterns in neglected disease in the Solomon Islands, *428.
foot in
— calcaneus deformity, posterior displacement osteotomy of calcaneus for, *233.
— surgery of: triple arthrodesis by inlay grafting, *333.
lower limb in: clinical assessment of a new weight-relieving brace, *439.
Polycentric total knee arthroplasty, 119.
complications of, 506.
Polyethylene
improvement of wear resistance through radiation cross-linking, 254.
ultrastructure of tissue formed round polyethylene implants, *206.
Polymethyl methacrylate. *See under* Acrylics.
Post-traumatic reflex dystrophy. *See* Sudeck's atrophy.
Prednisolone therapy: local injection for painful arc syndrome, 168.
Pressure sores. *See* Trophic ulcers.
Prostheses
See also Artificial limbs; Metallic implants; Surgical implants; *and under parts replaced.*
prosthetic replacement of distal half of femur for giant-cell tumour, 254.
total prosthetic replacement of humerus for chronic osteomyelitis with a pathological fracture, *360.
Protozoal infections. *See* Toxoplasmosis.
Pseudarthrosis, treatment, inductively coupled electromagnetic fields, 108.
Pseudarthrosis operation of Girdlestone
for infected total hip replacement, *298.
in ankylosing spondylitis, *393, 501.
Pseudomalignant osseous tumour of soft tissue, and myositis ossificans, 100.
Puberty, orthopaedic aspects of, 125.
Pulmonary function. *See* Lung function.

Q

Queen Elizabeth II, jubilee greetings to *(with colour portrait)*, 139.

R

Radiation: irradiation lesions of growth plate in rabbits, *85.
Radiography
See also Arthrography; Tomography.
analytical, of club feet, *485.
Radioisotope scanning of bone
mechanisms of uptake of isotopes in, 375.
with technetium-labelled phosphates
— biological basis of, 374.
— in assessment of viability of femoral head, 375.
— in caisson disease, 248.
— in osteoid osteoma, 128.
Radioisotope study with tritiated thymidine: transplantation antigens on bone cells, *342.
Radio-ulnar joint, distal, subluxation of, secondary to dislocation of radial head, 402.
Radio-ulnar synostosis, post-traumatic, 510.
Radius, head of, dislocation, anterior, in children, *402.
Renal . . . *See also* Kidney.
Renal osteodystrophy
skeletal changes before and after renal transplantation, 253.
vitamin D metabolites in orthopaedic management of haemodialysis patients, 511.
Replantation of limbs and digits, 514, 516.
Respiration. *See* Lung function.
Rhabdomyosarcoma, paraspinal, 143.
Rheumatoid arthritis
hand in:
— synovectomy in, effect on function and bone density, 378.
— tendon rupture, 502.
immune complex deposition in, 109.
knee in, arthroplasty of: MacIntosh prosthesis, 119.
shoulder in, surgery of: glenoidectomy, 122.
synovial cell culture from, 377.
thyrocalcitonin in: physiological and potentially therapeutic role, 253.
Rickets, hypophosphataemic, x-linked, oral phosphate therapy in, 116.
Royal College of Surgeons of England, Robert Jones lecture, 103.
Russia: Chaklin, Vasily Dmietrievich *(obituary)*, 369.

S

Sacrum, agenesis of, 497, 505.
Salford cosmetic brace, *439.
Sarcoma. *See under* Bone tumours; *see also specific terms.*
Scanning electron microscope studies:
normal and pathological articular cartilage, 378.
ultrastructure of normal digital flexor tendon sheath and of tissue formed round silicone and polyethylene implants, *206.
Scaphoid bone (carpal), fractures in children, non-union of, *20.
Sciatic nerve injury complicating total hip replacement, 390.
Sciatica
lumbar nerve root entrapment syndromes, 123.
treatment, arthrodesis, anterior interbody, 122.
Scintiscanning. *See* Radioisotope scanning.
Scoliosis
See also Spine deformities.
congenital, 255.
— two-stage corrective surgery for, 497.
diagnosis: Moiré topography in screening programmes, 505.

* Indicates full article or appreciable part.

Scoliosis *(continued)*:
idiopathic: incidence and natural history, 505.
in neurofibromatosis, 255.
treatment
— combined anterior and posterior instrumentation and fusion, 255.
— correction and internal fixation with flexible metal rod, *159.
— Dwyer anterior instrumentation and fusion, 117.
— halo-femoral traction, 117.
— operative, autotransfusions in, 505.
— rib fusion, 497.
Seat belts. *See* Accidents, traffic.
Shaw, Norman Edward *(obituary)*, 495.
Shoulder
See also Acromioclavicular joint.
approach, transacromial, *168.
arthrodesis
— functional analysis, 508.
— with limb amputation for brachial plexus injuries, *417, 498.
arthrography in painful arc syndrome, *166.
arthroplasty
— glenoidectomy for rheumatoid arthritis, 122.
— Neer's hemiprosthesis, for fracture–dislocations of upper end of humerus, 508.
— total replacement, 253, 257.
— — Neer's, 508.
dislocation
— posterior, staple capsulorrhaphy for, 508.
— recurrent, Bankart operation for, 122.
— — modified, 516.
pain due to degeneration of acromioclavicular joint, 507.
painful arc syndrome, *166.
remodelling: vascularity and remodelling of subchondral bone and calcified cartilage in adult humeral heads, *272.
rheumatoid, glenoidectomy for, 122.
subluxation, recurrent, 508.
Sickle cell disease, radiological diagnosis, 124.
SICOT, 14th congress, Kyoto, 1978 *(announcement)*, 379.
Silicones
silicone membrane implants in prevention of adhesions after lumbar spine surgery, 501.
ultrastructure of tissue formed round silicone implants, *206.
Skelecasts, 127.
Somatomedin activity in synovial fluid in joint diseases, 249.
South Africa: appointment of George Dall to Chair of Orthopaedic Surgery, University of Cape Town, 378.
South African Orthopaedic Association
annual congress, 1976, 253.
sixth combined meeting of orthopaedic associations of English-speaking world, 98.
Spain: Trueta, Joseph *(obituaries)*, 243.
Spastic paralysis. *See* Cerebral palsy.
Spina bifida
bone abnormalities in, 251.
foot in, surgery of: triple arthrodesis by inlay grafting, *333.
hip in: management aimed at minimum number of operations and minimum period of immobilisation *(discussion)*, 126.
knee flexion contracture in, treatment of, *433.
Spinal cord
injuries
— acute: assessment by somatosensory evoked potential, 509.
— experimental study, 257.
— late neurological sequelae, 124.
— pressure sores in patients with, management of, 509.
paralysis. *See also* Paraplegia; Tetraplegia.
Spinal stenosis
cervical, due to ossification of posterior longitudinal ligament, axial transverse tomography in, *481.
developmental: results of surgical treatment, *181.
diagnosis, ultrasound in, 249.
in South African negroes and caucasoids, 123, *173.
treatment, 507.
Spine
See also Back; Intervertebral discs.
Spine *(continued)*:
appliances
— halo-femoral traction, 117.
— halo-pelvic traction, 117.
arthrodesis
— anterior
— — for spinal erosion by syphilitic aortic aneurysm, *89.
— — with Dwyer instrumentation, for scoliosis, 117.
— cervical
— — anterior
— — — for disc lesions, *236, 255.
— — — for trauma, failures of, 509.
— — posterior: facet fusion after laminectomy, 121.
— for scoliosis: combined anterior and posterior instrumentation and fusion, 255.
— lumbosacral
— — anterior interbody, 122.
— — posterior, with screw fixation, 498.
cervical
— "chin on chest" deformity in ankylosing spondylitis, 121.
— injuries
— — anterior bone grafting for, failures of, 509.
— — fractures in ankylosing spondylitis, 509.
— — fractures of dens
— — — in young children, 254.
— — — treatment with halo-thoracic brace, 509.
— — "whiplash", potentially fatal asphyxia following, *93.
— spondylolisthesis, *95.
— stenosis due to ossification of posterior longitudinal ligament, axial transverse tomography in, *481.
congenital deformities, two-stage corrective surgery for, 497.
deformities. *See also* Kyphosis; Scoliosis.
— following spinal tumours in children, *143.
— halo-pelvic traction for, 117.
erosion by syphilitic aortic aneurysm, *89.
lumbosacral
— congenital abnormalities: sacral agenesis, 497, 505.
— mechanics: surface strain measurements on cadaveric spine, 250.
— morphometry and pathological anatomy in South African negroes and caucasoids, with special reference to spinal stenosis, 123, *173.
— spinal canal, measurement by ultrasound, 249.
— spinal canal stenosis. *See* Spinal stenosis.
— surgery
— — results of repeat operations on Workmen's Compensation Board patients, 507.
— — silicone membrane implants in prevention of adhesions after, 501.
osteotomy-resection, for congenital spine deformities, 497.
tumours
— chordoma of cervical vertebra, 515.
— in children, orthopaedic aspects of, *143.
Splints. *See* Orthopaedic appliances.
Spondylitis, ankylosing
"chin on chest" deformity in, 121.
fracture of cervical spine in, 509.
hip arthroplasty in, *393, 501.
muscle tissue abnormalities in, 257.
Spondylolisthesis, 99.
cervical, *95.
in children and adolescents, *490.
Spondylosis
cervical. *See also* Intervertebral discs, cervical, lesions of.
— whiplash injury in patient with, potentially fatal asphyxia following, *93.
degenerative spinal stenosis, *173.
Stapling, epiphysial, for genu valgum, *72.
Steroids
adrenocortical
— effect on mucopolysaccharide synthesis in aged articular cartilage, 109.
— local injection for painful arc syndrome, 168.
— necrosis of femoral head induced by, 119, *308.
plasma levels in Klinefelter's syndrome, 252.

* Indicates full article or appreciable part.

Subscapularis tendon lesions in painful arc syndrome, *166.
Subtalar joint, arthrodesis, posterior: Gallie's technique, modified, *287.
Sudeck's atrophy, treatment, 513, 515.
Supraspinatus syndrome, *166.
Sural nerve grafts: neurophysiological studies, 252.
Surgery: microsurgery, 514.
Surgical implants
See also Ceramics; Metallic implants; Plastics.
induction of tendon and ligament formation by carbon implants, *53, 501.
Syme's amputation for congenital short tibia with deficiency of fibula, 267.
Synostosis, radio-ulnar, post-traumatic, 510.
Synovectomy in rheumatoid hand, effect on function and bone density, 378.
Synovial fluid, somatomedin activity in, in joint diseases, 249.
Synovial membrane
localisation of factor VIII in, 374.
rheumatoid, cell culture from, 377.
Syphilitic aortic aneurysm with spinal erosion, *89.
Syringomyelia, 143.

T

Talipes. *See* Club foot.
Tarsus
See also Calcaneus.
arthrodesis
— subtalar, posterior: Gallie's technique, modified, *287.
— triple, by inlay grafting, *333.
Technetium scanning of bone
biological basis of, 374.
in assessment of viability of femoral head, 375.
in caisson disease, 248.
in osteoid osteoma, 128.
Television: quantitative colour television image analyser in measurement of bone density: evaluation in rat, *349.
Tendinitis, calcifying, 507.
Tendo calcaneus, replacement by filamentous carbon implant: experimental study, *53.
Tendon(s)
See also under Hand.
regeneration: induction by carbon implants, *53, 501.
sheaths: ultrastructure of normal digital flexor sheath and of tissue formed round silicone rod implants, *206.
Tenosynovitis
polytenosynovitis caused by *Toxoplasma gondii,* *229.
traumatic, of wrist extensors, surgical management of, *408.
Tetracyclines, bone labelling with, in experimental study: irradiation lesions of growth plate in rabbits, *85.
Tetraplegia, traumatic, upper limb tendon transfers in, 99.
Thompson, Frederick R., arthroplasty of hip for fractures of femoral neck
acetabular erosion after, 128.
systemic disturbance from, *398.
Thromboembolic disease after hip replacement, prophylaxis: heparin in subcutaneous small doses, 120.
Thymidine, tritiated
autoradiographic study with: irradiation lesions of growth plate in rabbits, *85.
in study of transplantation antigens on bone cells, *342.
Thyrocalcitonin
porcine, in treatment of familial idiopathic hyperphosphatasia, *421.
role in rheumatoid arthritis, 253.
Tibia
condyle, medial, collapse of, due to microstress fractures, 506.
congenital shortening, with fibular deficiency, natural history and management of, *267.
epiphysis, lower, traumatic rotational displacement of, *331.
Tibia *(continued):*
fractures
— of upper metaphysis in children, fibrous interposition causing valgus deformity after, *290, 516.
— treatment, conservative, 256.
Toenails, ablation of, a fresh approach to, 510.
Tomography, axial transverse, of cervical spine narrowed by ossification of posterior longitudinal ligament, *481.
Toronto Back Education Unit, 507.
Toxoplasmosis: polytenosynovitis caused by *Toxoplasma gondii,* *229.
Traction
halo-femoral, 117.
halo-pelvic, 117.
Training. *See* Education.
Transplantation antigens. *See* Histocompatibility antigens.
Trapezium, prosthetic replacement of, for arthritis of trapezial joints, 509.
Trauma. *See* Accidents; Fractures; Injuries; *and under structures involved.*
Triceps surae paralysis, calcaneus deformity in, posterior displacement osteotomy of calcaneus for, *233.
Triple arthrodesis. *See under* Tarsus.
Tritiated thymidine
autoradiographic study with: irradiation lesions of growth plate in rabbits, *85.
in study of transplantation antigens on bone cells, *342.
Trophic ulcers in spinal cord injured patients, management of, 509.
Trueta, Joseph *(obituaries),* 243.
Tuberculosis
of bone and joint, the great imitator, 511.
of hip, treatment: conversion of fused hip to low friction arthroplasty, *385.
Tumours. *See* Bone tumours; *see also specific terms.*

U

Ulna, fractures, isolated, 256.
Ulnar nerve injuries, autogenous sural nerve grafting for: neurophysiological studies, 252.
Ultrasound in spinal canal measurements, 249.
Ultrasound stethoscope in detection of ischaemia in hand, 510.
Urinary incontinence in elderly women treated by decompression of cauda equina, 123.

V

Venography in assessment of viability of femoral head, 504.
Venous thrombosis. *See* Thromboembolic disease.
Vitamin D metabolites in orthopaedic management of haemodialysis patients, 511.

W

Waugh, William, elected to Chair of Orthopaedic Surgery, University of Nottingham, 246.
Whiplash injury, potentially fatal asphyxia following, *93.
Wolff's law: experimental studies, 250.
Wounds
See Accidents; Fractures; Injuries; *and under structures involved.*
surgical, infection of. *See* Infections, post-operative.
Wrist
See also Lunate bone; Radio-ulnar joint, distal; Scaphoid bone.
arthritis of trapezial joints, prosthetic replacement of trapezium for, 509.
tenosynovitis
— caused by *Toxoplasma gondii,* *229.
— traumatic, of extensors, surgical management of, *408.

Z

Zickel nailing of subtrochanteric fractures, 498.
Zygapophysial joints, cervical: facet fusion after laminectomy, 121.

P. W. B. Green, Northampton

A New Method of Measuring Patellar Height 241
J. S. Blackburne, London *and T. E. Peel,* Leicester

The Natural History and Management of Congenital Short Tibia with Dysplasia or Absence of the Fibula . . 267
D. Hootnick, N. A. Boyd, J. A. Fixsen and G. C. Lloyd-Roberts, London

The Vascularity and Remodelling of Subchondral Bone and Calcified Cartilage in Adult Human Femoral and Humeral Heads 272
Lewis B. Lane, Aquiles Villacin and Peter G. Bullough, New York

Benign Osteoblastoma as a Cause of Osteomalacia 279
Seizo Yoshikawa, Toshitaka Nakamura, Michito Takagi, Tetsuo Imamura, Kazutoshi Okano and Satoshi Sasaki, Tokyo

Posterior Subtalar Fusion 287
Ali Kalamchi, Wilmington, Delaware, *and John G. Evans,* Toronto

Fibrous Interposition Causing Valgus Deformity after Fracture of the Upper Tibial Metaphysis in Children .. . 290
B. G. Weber, St Gallen

The Natural History of the Patient with an Infected Total Hip Replacement 293
Gordon Hunter, Toronto, *and David Dandy,* Cambridge

The Results of the Pseudarthrosis after Removal of an Infected Total Hip Prosthesis 298
J. Clegg, Coventry

Antibacterial Activity of Antibiotics in Acrylic Bone Cement 302
Barbara Picknell, Linda Mizen and R. Sutherland, Betchworth

Page

Cortisone-induced Avascular Necrosis of the Femoral Head 308
Richard L. Cruess, Montreal

An Assessment of the Value of Examination of the Hip in the Newborn 318
David Jones, London

The Autonomic Nerve Supply of Bone 323
Clive P. Duncan and Sun-Shik Shim, Vancouver

Rotational Displacement of the Lower Tibial Epiphysis due to Trauma 331
A. B. Nevelös, Leeds, *and C. L. Colton,* Nottingham

Triple Arthrodesis by Inlay Grafting—A Method Suitable for the Undeformed or Valgus Foot 333
Peter F. Williams and M. B. Menelaus, Melbourne

The Results of Early Operation in Talipes Equino-varus 337
Brian J. Main, Bury St Edmunds, *R. J. Crider, M. Polk and G. C. Lloyd-Roberts,* London, *Malcolm Swann and B. A. Kamdar,* Ascot

***In Vitro* Studies of Transplantation Antigens Present on Bone Cells in the Rat** 342
Domingo Luis Muscolo, Buenos Aires, *Shinya Kawai,* Ube, *and Robert D. Ray,* Chicago

Evaluation of a Computerised Image Analyser for Studying Alterations in Radiographic Bone Density in the Rat 349
Elmer E. Specht, Portland, Oregon

Fracture of the Patella Treated by Total Excision 352
Jonathan Wilkinson, London

Macrodactyly in the Foot 355
W. G. Dennyson, Edinburgh, *J. N. Bear and K. D. Bhoola,* Durban

Total Prosthetic Replacement of a Humerus for Chronic Osteomyelitis with a Pathological Fracture 360
Shigenori Yoshimoto and Hiroyuki Kaneso, Takada City, *and Masataka Tatematsu,* Nara

Kienböck's Disease in Cerebral Palsy 363
G. D. Rooker and J. W. Goodfellow, Oxford

Aetiology of Osteochondritis Dissecans 366
P. W. Roy Petrie, Dunfermline

Conversion of Fused Hips to Low Friction Arthroplasty 385
Kevin Hardinge, Wigan, *Desmond Williams,* Perth, Western Australia, *André Etienne,* Nice, *Donald MacKenzie,* Pretoria, *and John Charnley,* Wigan

Arthroplasty of the Hip in Ankylosing Spondylitis 393
E. Williams, Oxford, *A. R. Taylor,* Aylesbury, *G. P. Arden,* Ascot, *and D. H. Edwards,* Oxford

Systemic Disturbance from Thompson's Arthroplasty 398
J. M. Sikorski, Bath, *and A. J. Millar,* Aylesbury

Anterior Dislocation of the Radial Head in Children 402
G. C. Lloyd-Roberts and T. M. Bucknill, London

Surgical Management of Traumatic Non-infective Tenosynovitis of the Wrist Extensors 408
J. G. P. Williams, Farnham Royal

The Cast-brace Treatment of Femoral Shaft Fractures 411
D. Wardlaw, Aberdeen

Complete Brachial Plexus Lesions 417
A. O. Ransford and S. P. F. Hughes, London

Familial Idiopathic Hyperphosphatasia 421
O. Blanco, M. Stivel, C. Mautalen and F. Schajowicz, Buenos Aires

Crawling Patterns in Neglected Poliomyelitis in the Solomon Islands 428
A. B. Cross, Solihull

The Treatment of Knee Flexion Contracture in Myelomeningocele 433
E. Abraham, Chicago, *D. G. R. Verinder and W. J. W. Sharrard,* Sheffield

Clinical Assessment of a New Weight-relieving Brace 439
E. G. Anderson, Birmingham, *P. L. Frank and J. T. Henshaw,* Salford, *and H. G. Rae,* London

Joint Surface Incongruity and its Maintenance 446
John Goodfellow, Oxford, *and Argyrios Mitsou,* Athens

Page

Bacterial Infection and Acrylic Cement in the Rat 452
R. A. Elson, A. E. Jephcott, Sheffield, *D. B. McGechie,* Hong Kong, *and D. Veettas,* Sheffield

The Role of Three Genetically Distinct Collagen Types in Endochondral Ossification and Calcification of Cartilage . 458
Klaus von der Mark and Helga von der Mark, Martinsried, West Germany

The Muscles in Club Foot—A Histological, Histochemical and Electron Microscopic Study 465
Hyam Isaacs, John E. Handelsman, Margaret Badenhorst and Avonne Pickering, Johannesburg

Juxtacortical Chondrosarcoma 473
Fritz Schajowicz, Buenos Aires

Axial Transverse Tomography of the Cervical Spine Narrowed by Ossification of the Posterior Longitudinal Ligament 481
Kenji Hanai, Hiroshi Adachi and Hyoe Ogasawara, Nagoya

Analytical Radiography of Club Feet 485
George W. Simons, Seattle

Spondylolisthesis in Children and Adolescents 490
J. S. Blackburne, Barnet, *and Elias P. Velikas,* Athens

Norman Edward Shaw 495

Honour to Orthopaedic Surgeon

Knighthood conferred on Professor John Charnley 246

Proceedings and Reports of Universities, Colleges, Councils and Associations

Reports

Sixth Combined Meeting of the Orthopaedic Associations of the English-Speaking World 1976 98
British Orthopaedic Association—Visit of Travelling Fellows to North America 1976 371
British Orthopaedic Association—Spring Meeting 1977 497
Canadian Orthopaedic Association—Annual Meeting 1977 504
New Zealand Orthopaedic Association—Scientific Meeting 1977 514
South African Orthopaedic Association—Annual Congress 1976 253
Japanese Orthopaedic Association—Annual Congress 1977 378
British Orthopaedic Research Society 246
Association of Surgeons of East Africa—Annual Meeting 1976 512

Appointments

Past and Future Editorial Arrangements 496
University of Liverpool—Degree of M.Ch.(Orth.) 246
University of Nottingham—Appointment of Mr William Waugh to Chair of Orthopaedic Surgery 246
University of Cape Town—Appointment of Mr George Dall to be Nuffield Professor of Orthopaedic Surgery . 378
University of Western Australia—Appointment of Mr Sydney Nade to Chair of Orthopaedic Surgery . . . 496
British Orthopaedic Association—Election of Honorary Fellows, Fellows, Companion Fellows and Associates 133, 503
British Orthopaedic Association—Robert Jones Medal 1976 131

Announcements

British Orthopaedic Association—Instructional Course 134
British Orthopaedic Association—Spring Meeting 1978 258
British Orthopaedic Association—Travelling Fellowship to North America 1978 258
British Orthopaedic Association—United Kingdom Travelling Scholarships 1978 258
British Orthopaedic Association—Autumn Combined Meeting with Spanish Orthopaedic Association . . . 518
British Orthopaedic Association—Weekend Instructional Course 518
